Certifications

Geekster | Geekster Full Stack Web Development
- Solved 500+ DSA/Coding questions on Hackerrank and Leetcode.
- Participated in various Geekathons organised by the platform.
- Technical Stack Learner:

Front-End: ReactJS, Redux, HTML, CSS, Tailwind CSS, JavaScript.

Back-End: Firebase (Authentication & Database**)**

DataBase: Firebase Firestore

Libraries & Animations: GSAP, Locomotive Scroll, CodeMirror, Framer Motion

Projects

CodePen Clone [Currently Working On It **]**
- Built an interactive CodePen Clone using React, which allows users to write and preview HTML, CSS, and JavaScript code in real time. Integrated CodeMirror for syntax highlighting, auto-completion, and an efficient code-editing experience, ensuring smooth and responsive user interactions.
- **Implemented Firebase Authentication for secure user login and session management.** Optimized state handling for seamless performance, ensuring users can save, edit, and test their code effortlessly across different sessions.
- **Tech Stack:** React, CodeMirror, Firebase Authentication, HTML, CSS, JavaScript.

Serenity Hub | Meditation Website [[Deployed Link](#)**] [**[Github Link](#)**]**
- **Developed *Serenity Hub*,** a meditation website designed to provide a calming and immersive experience. Created an intuitive UI with an *About Us* section and *Our Goals* part to guide users on their mindfulness journey.
- Implemented a meditation timer to help users track their sessions effectively. Enhanced user experience with smooth animations using GSAP and seamless scrolling with Locomotive Scroll.
- **Tech Stack:** HTML, CSS, JavaScript, GSAP, Locomotive Scroll.

Skills

- **Computer Language** : Java, Javascript
- **Frameworks / Libraries** : ReactJS, Tailwind, Redux
- **Tools & Technologies** : GIT & Github, VS code, Firebase

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2022	B.C.A.	IPU	85.7%
2018	12th	CBSE	60%
2016	10th	CBSE	7.6 CGPA
